BADGES

BADGES allow you to collect memories and display achievements directly on NFTs. Building your badge collection is fun and free, it only requires your participation. Build your badge collection by completing specific achievements, attending special events, and much more. Collect badges to be eligible for exclusive utility access specific for each badge.

ACHIEVEMENT BADGES

Awarded for accomplishing certain **achievements** within the Dizzy ecosystem. This includes the NFT collection(s), Metaverse exploration and more.

EVENT BADGES

Awarded for attending special **events** such as metaverse parties, collaboration events, Discord Stages, Twitter Spaces and more.

CREATIVE BADGES

Awarded for participating or winning creative events such as art contests, meme contests and even just creating Dizzy related art!
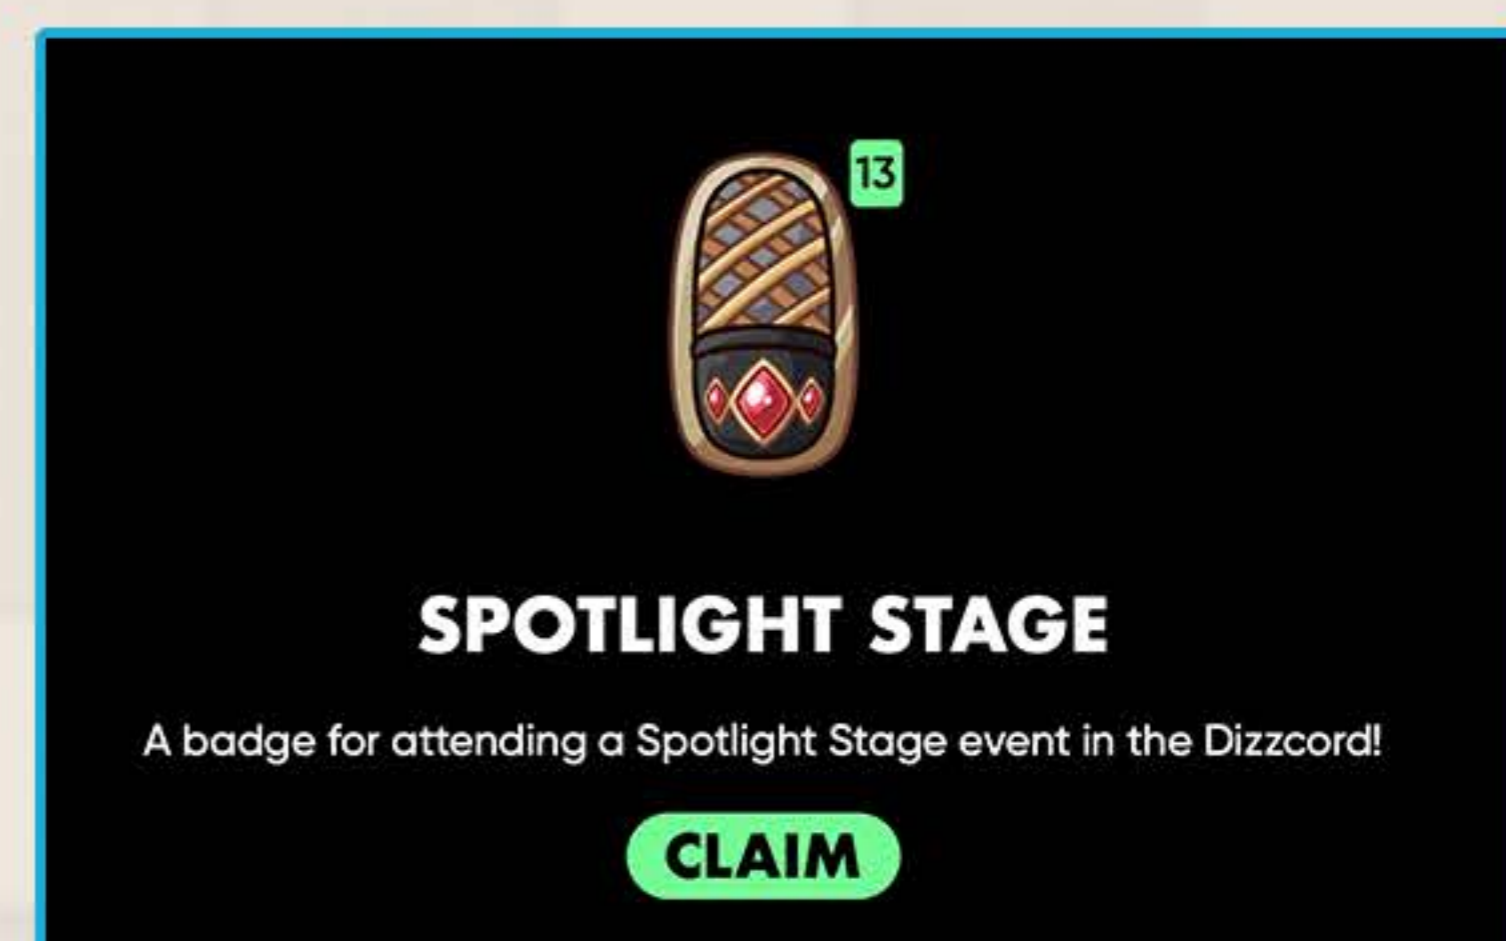

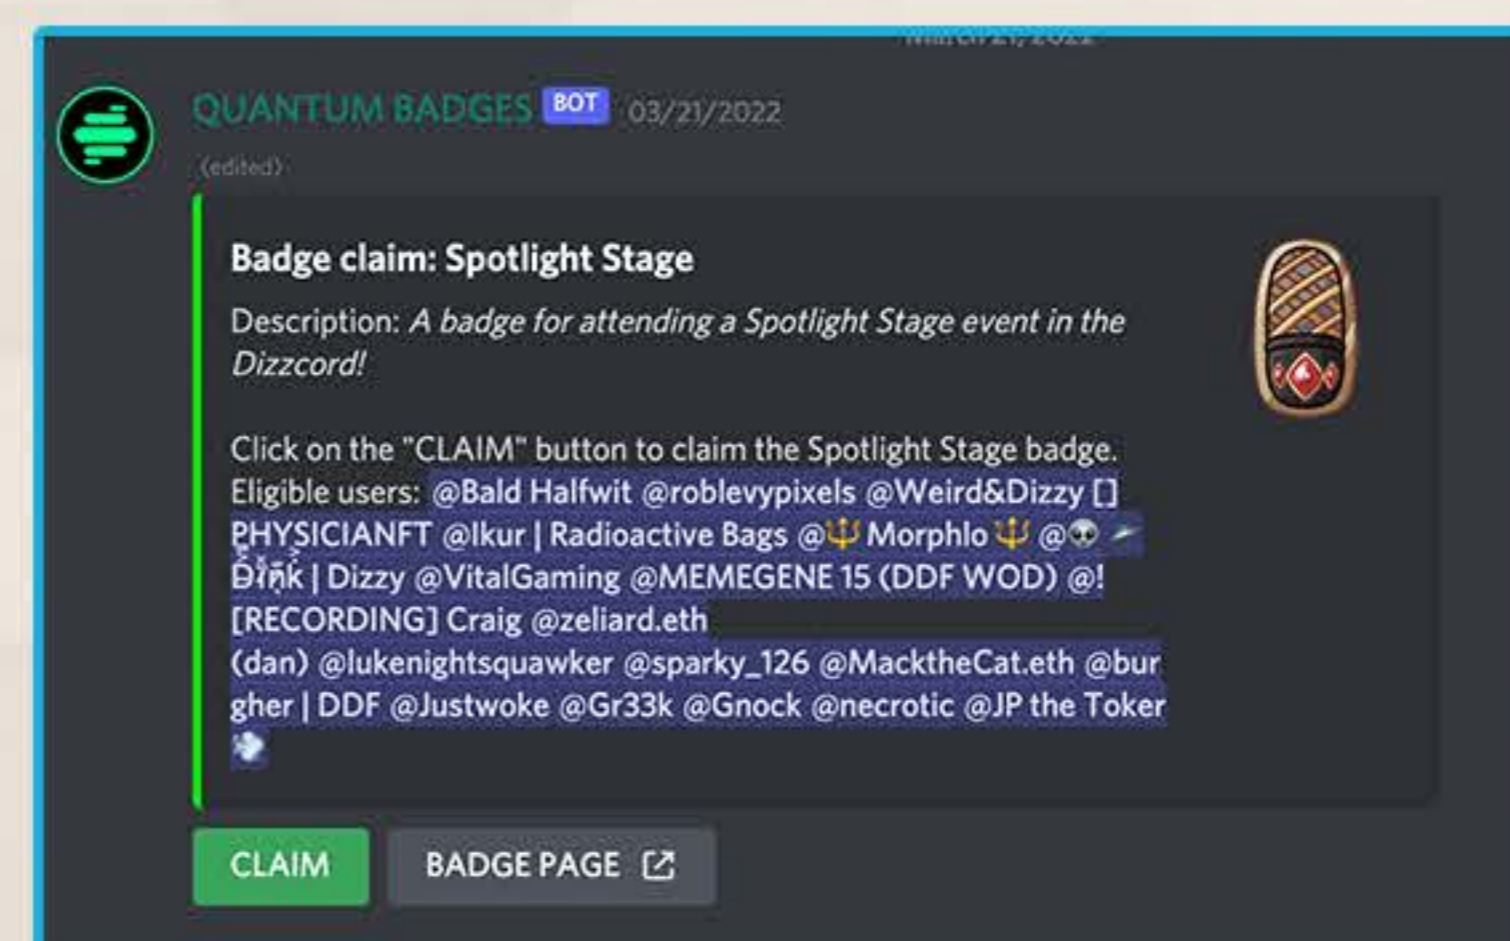

ELITE BADGES

Awarded for attending or participating in **ELITE** classified events.

CLAIMING

Discord - Navigate to the channel that the claim is happening in and select the claim button. If you are eligible, you will be provided a link to go to a claiming page.

Website - Navigate to any badge that has been released, click the claim button, and connect wallet. If you are eligible to claim, it will take you to a page to finish the claim process.

Certain badges require you to submit screenshots for proof of eligibility. To do so takes two simple steps;

1) Share the screenshot on social media, tagging **@DizzyDragonsNFT** and including **#Dizzybadge**.

2) Then locate the **#Badge-Submission** channel in the Dizzy Dragons discord and post a link to the submission there.

VIEW ON OPENSEA

BADGES are viewable anywhere Quantum Metadata is supported, including OpenSea. A white bar will be visible on the bottom of your NFT which upon clicking will open up the badge drawer.
